MAKSYM BOZHOK

VOLUNTEER

PROFILE

I am an aspiring project manager with a lot of experience moving to different countries and socializing internationally and culturally. Getting to know new people and finding a common language with them is one of my strengths. I've also tried a lot of activities, from filming backstages for music videos, working in the kitchen and doing social activities in the crypto world. Very interested in working in different fields, so I chose this profession to start my professional career.

EXPERIENCE

Majinx.io

Community Manager internship

Managed and developed a Telegram Community with over 5000 members. Developed and customised content for various target audiences. Tracked and analyzed community activity metrics and prepared regular reports for management.

Results:

- Each project generated over 10k\$ in turnover, with 3 project per week.
- More than 2 thousand active users
- Gained extensive experience in the crypto industry

Superludi

Project Management course (April 2024- June 2024)

A 3 month course that trained me to lead a project from the very beginning and until release it to the market. Working with plans, timings, team and stakeholder's management.

Merco

Advertising and Community Manager (June 2024 - now)

Managed a Telegram Community with over 13000 members. Tracked and analyzed community activity. Then I was looking for advertising offers and managed them to head-leads.
